
Taipei Transit Guide

An English-language reference for public transport in Taipei — metro lines, rolling stock, depots and bus routes.

FEATURED · HISTORY

The Matra dispute

Two disputes thirteen years apart, usually told as one — the test-track fires an engineering change explains, the seventeen-year lawsuit Matra won, and the walkout that taught Taipei how to buy its next railway.

Rail & cable

Fixed-guideway transit in the Taipei region — the metro network, the Maokong ropeway, and the conventional and high speed railways to come.

Metro

The metropolitan metro network — the lines a rider treats as one railway, under one numbering scheme and one fare system.

Cable

The Maokong Gondola — an aerial ropeway run by a TRTC subsidiary, and the region's only cable transit.

Taichung Metro

Taichung's Green Line — a single steel-wheel, driverless metro linking Beitun, the city centre and the HSR station.

Taiwan High Speed Rail

Taiwan's 350 km high-speed railway, with 12 stations from Nangang to Zuoying and a BOT history that changed during financial restructuring.

Taoyuan Metro

Taoyuan Metro's operating Airport MRT and the separate Green Line project registry published by the city engineering bureau.

Taiwan Railways

Taiwan Railways current station and line data, with historical route architecture kept distinct from the live TDX snapshot.

Kaohsiung Metro

Kaohsiung Metro's Red and Orange Lines and the Circular Light Rail, with TDX metro data and operator/government LRT records kept distinct.

Alishan Forest Railway

Taiwan's 762 mm forest and mountain railway from Chiayi to Alishan, with active sunrise and forest-park branches.

Projects

11 pages

Lines under construction, approved extensions, proposals and abandoned alignments.

History

57 pages

How the railway came to be the way it is — the contracts, disputes and decisions whose consequences are still running.

Technology

13 pages

The technology layer — signalling, power, guideway and automation — and why Taipei runs several of each.

Operators

4 pages

Who actually runs what — TRTC, New Taipei Metro, Taoyuan Metro, and eventually TRA and THSR.

Bus

How Taipei's joint-operation bus network is numbered, coloured and paid for.

Bus operators

61 pages

TDX operator records, generated route associations and the fields that still require company or government sources.

Network

1 page

The joint-operation system — one brand, one fare structure, many private companies — and the route numbering that encodes more than it appears to.

Routes

1051 pages

Individual bus routes — operator, corridor, stop list and frequency.

Bus depots and operating sites

3 pages

Sourced bus stations, dispatch sites and charging-depot procurements, with capacity and opening gaps left visible.

Bus models

3 pages

Sourced bus vehicle records, propulsion evidence and the fields that remain unpublished.

National intercity coaches

0 pages

A source-backed snapshot of Taiwan's national intercity-coach operators, route variants, stops and published departure times.

Regional bus networks

4 pages

City and county bus networks beyond the Taipei core, with dated Hsinchu, Taichung, Tainan and Kaohsiung layers.

Bike

YouBike — the shared bicycle system that is genuinely part of the transit network, with a generational story nobody has told properly in English.

History

1 page

From the Xinyi pilot to the retirement of the first generation — the timeline, dated from primary announcements.

Generations

0 pages

1.0, 2.0 and 2.0E — incompatible by design, and the engineering reasons why.

Stations

29 pages

Browse the committed static YouBike station snapshot by municipality and district.

Ferry

The Blue Highway — small, real, inside the fare system, and absent from almost every English account of Taipei transit.

Ferry routes

7 pages

Current Blue Highway routes, Kaohsiung Cijin ferry routes and Penghu, Kinmen, Matsu, Green Island and Orchid Island services, with piers, operators, fares and date-sensitive rules.

Ticketing

Cards, passes and fares — the layer every rider touches and English sources routinely get wrong.

Guides

6 pages

How payment actually works across the Taipei region — cards, the commuter pass, and fares.

An independent, non-commercial reference site. Not affiliated with Taipei Rapid Transit Corporation, Taipei City Government, or any bus operator. Line colours are the official values published by each operator through Taiwan MOTC's open data platform. [About this site.](#)

Station names, codes and sequence from TDX Transport Data eXchange, Ministry of Transportation and Communications, operators TRTC, NTMC, TYMC, and TMRT. Government open data. Retrieved 2026-08-22; source last updated 2016-11-23. The 12 Sanying station records absent from TDX are sourced directly to New Taipei Metro and government publications on their pages. Provenance.
