TOWARDS	FIRST	LAST
Taipei Zoo	06:03	00:03
Taipei Nangang Exhibition Center	06:01	01:05

The current DORTS project table maps Donghu to engineering station B9, and the CB424 record includes B9 in the four-station elevated package covering B6–B9. ^[1] B9 is on 25-metre Kangning Road 3, near Lane 245, on transport land to the northeast. ^[2] The technical record describes a northeast–southwest elevated side platform, a 93-metre station body 20.6 metres wide and an 83-metre platform. ^[2] DORTS treats B9 as part of the commercial-and-recreation corridor along Chenggong and Kangning Roads, where the broader account also records Dahu Park’s recreational role and nearby infrastructure. ^[3] B9’s theme is Music, with a blue-grey station colour and a design reference to the Keelung River and sky. ^[4] The shared elevated-station design keeps circulation semi-open and uses glass, enamelled steel and natural ventilation to reduce the visual and structural heaviness of a station above the road. ^[5] B9 is among the side-platform stations for which DORTS documented rainwater falling from the platform edge onto metal cladding and prescribed flashing and maintenance procedures. ^[6] Lake Ripples at Exit 3 turns the wall into DORTS’s “lake city story”: wind and rain create overlapping ripples that stand for shared memory in a city with lakes. ^[9] The official art table records the work in March 2009 on the exterior wall at Exit 3, by Wu Shui-yi and Yang De-yi, using ceramic with celadon glaze through open selection at a listed cost of NT\$2,300,000. ^[9] The public-art chapter’s executed list also records Donghu as an open-selection station, separate from the topic summary used to frame the line’s design themes. ^[8] The station-colour plan separates the brown line colour used in platform-door and sign systems from each station’s own colour treatment across selected finishes. ^[7] The fetched CB424 record identifies the station package and dimensions but does not publish an individual contractor, award date or final station-package value; those fields remain TBC. ^[2]

文山內湖線

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-17

The full project record supports the Neihu extension's departure from Zhongshan Junior High tail tracks, its route toward Songshan Airport, and the airport-station siting decision. The original-language wording was checked on the linked page: the paragraph beginning 內湖線為銜接木柵線

and the sentence beginning 經評估以捷運內湖線於松山機場增設車站.

- 2 CB424 and CB425 station structures and sites [<https://ebook.dorts.gov.taipei/ebook/no32/files/basic-html/page24.html>]

捷運高架橋梁結構設計與施工

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-18

The full technical volume gives B7, B8 and B9 station sites, orientations, platform forms and dimensions, describes the approximately 4 km CB424 bridge, and begins the CB425 records for B10 and B11. The original-language entries beginning B7大湖公園站 and B10南港軟體園區站 were checked on the linked page.

- 3 Neihu Line corridor design zones [<https://ebook.dorts.gov.taipei/ebook/no34/files/basic-html/page91.html>]

捷運高架車站建築造型設計

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-18

The full architecture volume places B2–B5 in the residential–rural landscape zone, describes the Xihu-area reclaimed land beside the river, and distinguishes B6–B9 as a commercial–recreation zone and B10–B11 as an industrial–technology zone. The original-language headings beginning 住宅城鄉風貌, 商業休閒環境 and 工業科技景觀 were checked on the linked page.

- 4 Neihu Line station themes and colours [<https://ebook.dorts.gov.taipei/ebook/no34/files/basic-html/page95.html>]

捷運高架車站建築造型設計

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-18

The full architecture volume's station-theme table records the B2–B11 themes and associated colours, including B6's Market/wine red, B7's Recreation/sapphire blue, B8's Dance/purple, B9's Music/blue-grey, B10's Digital/silver-grey and B11's Light-and-shadow/silver-white. The original-language table beginning 各車站設計主題及色彩 was checked on the linked page.

- 5 Neihu Line elevated-station design principles [<https://ebook.dorts.gov.taipei/ebook/no34/files/basic-html/page93.html>]

捷運高架車站建築造型設計

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-18

The full architecture volume describes the shared materials, platform-space form, overpass, semi-open edges, natural ventilation and “same within difference” approach of the elevated Neihu stations. The original-language paragraphs beginning 特殊站在建築語彙上 and 車站穿透與輕巧之構想 were checked on the linked page.

- 6 Neihu Line platform-edge design review [<https://ebook.dorts.gov.taipei/ebook/no34/files/basic-html/page131.html>]

捷運高架車站建築造型設計

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-18

The full architecture volume distinguishes the Xihu and Nangang Exhibition Center island-platform stations from the eight side-platform stations and records the platform-edge rain-stain and glass-cover design review. The original-language paragraph beginning 除了西湖站及南港展覽館站 was checked on the linked page.

- 7 **Neihu Line station form and environmental detailing** [<https://ebook.dorts.gov.taipei/ebook/no34/files/basic-html/page97.html>]

捷運高架車站建築造型設計

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-18

The full architecture volume explains how route colour and station colour are applied to columns, paving, wall panels, floors and doors, and illustrates the B2–B5 station forms. The original-language paragraphs beginning 各車站之色彩計畫 and 內湖段之車站為高架車站 were checked on the linked page.

- 8 **Neihu Line public-art selection and implementation** [<https://ebook.dorts.gov.taipei/ebook/no2/files/basic-html/page257.html>]

捷運車站規劃與設計實務

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-18

The full page lists the Neihu station design-topic summary, records the executed-artwork selection methods, explains that the original wall-art installations at Gangqian and Huzhou were cancelled after design changes because the walls were incomplete, explains the later donated Gangqian work, and states how DORTS handled selection, material subsidy and implementation. The original-language paragraphs beginning 各站公共藝術之設置地點及徵選方式, 原擬於文德站、港墘站及葫洲站 and 港墘站之作品為捐贈 were checked on the linked page.

- 9 **Wenhu Line public-art table** [<https://www.dorts.gov.taipei/cp.aspx?n=EF3512A90C6BCFD2&s=E45C77C5F722B310>]

公共藝術總表

PRIMARY Taipei City Department of Rapid Transit Systems accessed 2026-08-17

The full official table supports the Wenhu entries for Songshan Airport, Jiannan Road, Xihu, Gangqian, Wende, Dahu Park, Donghu and Nangang Exhibition Center, including completion dates, locations, titles, authors, descriptions and selection methods. The original-language rows were checked on the linked page.
