Taoyuan YouBike station index

Searchable static YouBike station rows for Taoyuan, grouped by district with coordinate-verified rail joins.

TAOYUAN YOUNBIKE STATION INDEX			
MUNICIPALITY Taoyuan [/rail/ths r/stations/taoyua n/] ^[1]	STATIC STATION ROWS 699 ^[1]	PUBLISHED DOCK CAPACITY TOTAL 24214 ^[1]	CONFIRMED COORDINATE JOINS 18 ^[2]

This is the Taoyuan [\[/rail/ths
r/stations/taoyuan/\]](#) browse index for the static TDX Bike Station/City snapshot retrieved on 25 August 2026 ^[1]. It contains 699 station rows and a published capacity total of 24214 docks ^[1]. Live available-bike and available-return-dock values are excluded because they belong to a separate availability feed ^[1].

The MRT/LRT column is present only when the station has one unique nearest TDX rail station within 200 metres by coordinates ^[2]. The join does not compare names, and an ambiguous or more distant result is left blank ^[2].

District indexes

DISTRICT	STATIONS	PUBLISHED CAPACITY	COORDINATE JOINS
Dayuan [/bike/stations/taoyuan-dayuan/] ^[1]	1	33	0
Pingzhen [/bike/stations/taoyuan-pingzhe n/] ^[1]	1	15	0
Fuxing [/bike/stations/taoyuan-fuxing/] ^[1]	1	15	0
Unclassified [/bike/stations/taoyuan-unclas sified/] ^[1]	692	24045	18
Taoyuan [/bike/stations/taoyuan-taoyuan/] ^[1]	2	51	0
Yangmei [/bike/stations/taoyuan-yangmei/] ^[1]	1	14	0

DISTRICT	STATIONS	PUBLISHED CAPACITY	COORDINATE JOINS
Guishan [/bike/stations/taoyuan-guishan/] [1]	1	41	0

Each district link is a browse page rather than an individual station page: a dock is a data row here, not a thin standalone article [1].

Snapshot detail

The Taoyuan municipality section is a build-time view of 699 returned TDX Station/City records, not a live occupancy display [1]. The normalized rows retain 699 English station names, 699 Traditional Chinese station names, and 699 valid coordinate pairs; the source response also supplies station identifiers, addresses, service type, capacity and source-update timestamps [1].

The published capacity values in this group range from 12 to 99 docks per row, with the total shown above calculated by summing the returned BikesCapacity fields [1]. The observed ServiceType distribution is 2: 699, so a missing or null service value is not converted into an assumed operating category [1].

The TDX records used for this page carried UpdateTime value(s) 2026-08-25T23:37:06+08:00 [1]. Those timestamps date the source response, while the page frontmatter records the retrieval date; neither timestamp is presented as a prediction of future station availability [1].

Representative rows in this group are station ID 500306100 (24 docks; YouBike2.0_兒十八公園), station ID 500302016 (16 docks; YouBike2.0_兒2兒童公園) and station ID 500302020 (23 docks; YouBike2.0_兒八公園) [1]. They remain rows in a browse index because the source provides a compact identity, address, coordinate and capacity record; creating a separate article for every dock would repeat the same source fields without adding a sourced history or design record [1].

The nearby-rail column is conservative: 18 rows have a confirmed coordinate join in this group [2]. A match is retained only when one nearest candidate is within 200 metres and not tied at the one-metre ambiguity threshold, and the calculation compares coordinates rather than station names [2]. Current available bikes and return docks are deliberately outside this static page because TDX publishes those values through a separate availability feed [1].

Specifications

Live availability	TBC
