Network

The national freeway system as infrastructure — the numbered routes and the electronic-toll-collection system that replaced every staffed tollbooth in 2013.

National freeways and electronic tolling

The 國道 network's numbered routes across three self-described construction generations, and the 2013 switch to all-electronic distance-based tolling that laid off 947 staff in one day.

An independent, non-commercial reference site. Not affiliated with any transit operator or government body in Taiwan. Line colours are the official values published by each operator through Taiwan MOTC's open data platform. [About this site](#).

Station names, codes and sequence from TDX Transport Data eXchange, Ministry of Transportation and Communications, operators TRTC, NTMC, TYMC, and TMRT. Government open data. Retrieved 2026-08-24; source last updated 2016-11-23. The 12 Sanying station records absent from TDX are sourced directly to New Taipei Metro and government publications on their pages. Provenance.
