Lines

The single Taiwan High Speed Rail route and its source-backed system record.

The High-Speed Rail system has one passenger route in this guide. Its line page combines the route's construction and operating record with the BOT and technology conflicts that explain why the system cannot be reduced to a station list.

1 entry

Taiwan High Speed Rail

The 350 km, 12-station west-coast high-speed railway, built through a BOT concession and operated with a Japanese-reference 700T system whose procurement history remains contested in official reports.

An independent, non-commercial reference site. Not affiliated with any transit operator or government body in Taiwan. Line colours are the official values published by each operator through Taiwan MOTC's open data platform. [About this site.](#)

Station names, codes and sequence from TDX Transport Data eXchange, Ministry of Transportation and Communications, operators TRTC, NTMC, TYMC, and TMRT. Government open data. Retrieved 2026-08-24; source last updated 2016-11-23. The 12 Sanying station records absent from TDX are sourced directly to New Taipei Metro and government publications on their pages. Provenance.
