

# Stations

Eighteen Green Line stations in TDX running order, with their siting, contract context and published station design.

The station list is generated from the TMRT `Station` and `StationOfRoute` records in TDX.<sup>[1]</sup> Station pages are content entities because the useful distinctions are not only coordinates: the construction package, engineering form, naming context and the operator's published public-art record differ from stop to stop.<sup>[2] [3] [4] [5]</sup>
