Jiande Xingfeng — Taoyuan Green Line

Jiande Xingfeng (**G01**) on Taoyuan Metro's under-construction Green Line; location, structure and transfer evidence are kept separate from TDX's Airport MRT operating records.

G GREEN LINE [/RAIL/TYMC/LINES/GREEN-LINE/] 綠線			
STATION CODE	PUBLISHED NAME	STRUCTURE	LOCATION
G01 ^[1]	建德興豐站（八德國小） ^[1]	elevated ^[1]	Bade District expanded urban-planning area, near Jiande Road and Xingfeng Road ^[1]
TRANSFER NOTE			
Future Green Line [/rail/metro/lines/songshan-xindian-line/] extensions to Zhongli and Daxi ^[1]			

Current identity

Jiande Xingfeng is the project-page English rendering of 建德興豐站（八德國小） (**G01**). ^[1] The project table places it at Bade District expanded urban-planning area, near Jiande Road and Xingfeng Road and classifies the station as elevated; those are project-design fields, not observations from a currently operating railway. ^[1]

Place in the Green Line project

G01 sits in the Taoyuan Green Line [/rail/tymc/lines/green-line/] station sequence published by the Taoyuan [/rail/thsr/stations/taoyuan/] engineering bureau. The source table lists the code, a location description and a transfer note where one has been defined; it does not turn an unnamed station code into a final public name. ^[1] The published transfer statement is: Future Green Line extensions to Zhongli and Daxi. ^[1]

Evidence boundary

A live TDX check of the TYMC `[/rail/operators/tymc/]` Line, Station, StationOfRoute, Route, Shape, transfer and timetable families returned Airport MRT records, including one A line record, but no Green Line record on 24 August 2026.^[2] This page therefore keeps the Green Line as a primary-research project registry. Coordinates, entrances, accessibility facilities, platform gaps, fares, headways, ridership and opening dates remain TBC rather than being inferred from a map, a neighbouring Airport MRT station or a planned interchange.^[1] ^[2]

The route is still under construction. A construction-project station should not be described as though it already has passenger service, a live timetable or observed daily use. The engineering bureau's current page gives the line-wide target as 2030, but it does not provide a station-specific opening date for `G01`; that field remains TBC here.^[1]

What the source does and does not establish

The checked material establishes the station's project identity, project location and planned civil form. It does not establish a final station entrance list, lift count, tactile route, toilet, nursing room, platform-screen-door arrangement, train service pattern or passenger count. Those gaps are recorded as gaps in the research file rather than filled from the Airport MRT's current station pages.^[1] ^[2]

Source boundary

The Green Line page is a dated project record. Read the original-language station table and the live TDX result together: the former establishes the planned station, while the latter establishes only the current data boundary.^[1] ^[2]

Specifications

Sequence in project table	1 record ^[1]
Coordinates	TBC
Ridership	TBC
Opening date	TBC
