Capital Bus Co., Ltd. — Taipei operator profile

A sourced profile of Capital Bus's legal record, operating sites and Taipei-region network.

CAPITAL BUS CO., LTD. – TAIPEI OPERATOR PROFILE			
ENGLISH NAME Capital Bus Co., Ltd. ^[1]	CHINESE NAME 首都客運 ^[1]	TDX OPERATOR RECORD ID bus-operator-capitalbus-1icts2l ^[1]	TDX OPERATOR CODE CapitalBus ^[1]
TDX OPERATOR NUMBER 0913 ^[1]	SOURCE MUNICIPALITY Taipei [/rail/thsr/stations/taipei/] ^[1]	ROUTES IN COMMITTED PULL 61 ^[1]	TDX PHONE 0800-000-866 ^[1]
TDX-PUBLISHED URL http://www.capital-bus.com.tw ^[1]	MOEA REGISTRATION DATE 1975-08-14 ^[2]	REGISTERED ADDRESS 新北市三重區重新路二段78號8樓 ^[2]	OPERATOR-STATED FOUNDING DATE 1976-07-01 ^[3]

Company history and legal identity

The MOEA record identifies Capital Bus as 首都客運股份有限公司, with the English charter name CAPITAL BUS TRANSPORTATION Co., LTD. It gives unified business number 34049262, registered address in Sanchong [/rail/metro/stations/o15/], paid-in capital of NT\$530 million, representative Li Bowen and a registration date of 14 August 1975 ^[2]. The same record lists city bus, intercity bus, tour-bus, vehicle-repair and related activities among the approved business categories ^[2].

The operator's own company profile gives a different dated milestone: it says the company was founded on 1 July 1976 ^[3]. Taipei [/rail/thsr/stations/taipei/] PTO's history places the predecessor called San Chung City Bus among the five private operators entering the city's joint-operation system on 30 April 1977, and labels that predecessor as today's Capital Bus ^[4]. Those dates are kept as separate registration, founding and network-transition events rather than silently chosen as one origin date.

Operating sites and network

The current TDX snapshot associates 61 routes with the Taipei CapitalBus record ^[1]. The page's route section is generated from those associations, so it can change with the committed data pull without turning this profile into a hand-maintained route list ^[1].

Capital's profile names 21 operating sites, including Sanchong, Erchong, two Xinzhuang [/rail/metro/stations/o18/] sites, Sanxia [/rail/metro/stations/lb06/], Neihu [/rail/metro/stations/br19/], Dongyuan, Shilin [/rail/metro/stations/r16/], Nangang, Jingmao, two Xizhi sites, Shezi, Luodong, Ankeng, a second Sanchong site, Minsheng, Banqiao Front, Badouzi, Hualien and Banqiao ^[3]. It separately lists a maintenance plant and inspection teams at Sanchong, Erchong, both Xinzhuang sites, Neihu, Shilin, Xizhi, Ankeng and Wujie ^[3]. The source does not state opening dates, vehicle capacity or route allocation by site, so those fields remain TBC rather than being inferred from the route list ^[3].

Fleet and oversight

Neither the operator profile nor the readable MOEA record publishes a current manufacturer/model roster, chassis and body combinations, passenger capacities, or electric and hybrid counts ^[3] ^[2]. The page therefore reports the fleet-model and propulsion roster as TBC; route count is not a fleet proxy ^[1].

New Taipei's 111(2) evaluation report records Capital Bus at 94.01 points, grade 優等 and second place in that period; its comparison table also records 優等 for 110(2) and 111(1) ^[5]. That result is useful evidence of dated public oversight, but it does not establish that every route, site or vehicle had the same result ^[5].

The page can therefore say something specific about Capital's legal record, geographic operating footprint and facilities, while leaving its complete fleet and contract history open. A model-level fleet register, procurement/subsidy table and depot register would be needed to fill those gaps.

TDX record

The committed TDX pull identifies this page as the operator record for Capital Bus Co., Ltd. (首都客運), with source municipality Taipei ^[1].

TDX publishes the record ID bus-operator-capitalbus-1icts2l, operator code CapitalBus, operator number 0913, phone 0800-000-866 and URL <http://www.capital-bus.com.tw> ^[http://www.capital-bus.com.tw] for this record ^[1].

This is a data record, not a claim that every TDX record with the same company name is a separate legal entity ^[1].

Routes associated with this record

The list below is generated from the committed route pull's operatorIds associations, so it records the current data snapshot rather than a hand-maintained route roster ^[1].

Research gaps

The committed TDX operator record contains no founding history, ownership structure, fleet-model roster, depot or garage field, or contract-history field; each remains TBC here ^[1].

The record's URL is reproduced as TDX metadata, but a company-history, ownership, fleet, depot or dated contract claim requires a full page from the operator or responsible government authority ^[1].

Specifications

Fleet model and propulsion roster	TBC
Operating sites	21 sites plus maintenance teams ^[3]
Site opening dates and capacities	TBC
