| COMPLETION DEADLINE IN PROCUREMENT<br>15 July 2026 <sup>[2]</sup> |                                                                                      |                                             |                                              |

## Procurement record

Danan's contact directory names Guandu [/rail/metro/stations/r25/] as one of its operating sites and describes it at a road intersection rather than publishing a full street address <sup>[1]</sup>. A separate Danan procurement specification describes an electric-bus parking and charging project for 74 spaces, split into 42 Class A and 32 Class B spaces <sup>[2]</sup>.

The specification uses 350-kWh and 200-kWh battery assumptions for the two classes and gives 15 July 2026 as the completion deadline <sup>[2]</sup>. Those are procurement requirements, not evidence that construction finished or that buses were assigned to specific routes <sup>[2]</sup>.

## Gaps

The fetched sources do not establish an opening date, current completion status, the depot's final address, route allocation, charger manufacturer or operating capacity beyond the planned parking-space count <sup>[1]</sup> <sup>[2]</sup>. Those fields remain TBC until a completion notice, as-built record, current depot register or route-allocation document is fetched <sup>[2]</sup>.

## Specifications

|                           |     |
|---------------------------|-----|
| Current completion status | TBC |
| Route allocation          | TBC |
| Opening date              | TBC |
