Cards, the commuter pass, and how fares work

EasyCard and iPass are separate companies from separate cities that happen to work on each other's networks. The NT\$1,200 regional pass is cheaper and covers more than the pass it replaced. Neither fact is what most English guides say.

CARDS, THE COMMUTER PASS, AND HOW FARES WORK

EASycard Issuer 悠遊卡股份有限公司 (EasyCard [/ticketing/guides/cards-passes-and-fares/] Corporation) ^[1]	EASycard Founded March 2000 ^[1]	iPass Issuer 一卡通票證股份有限公司 ^[5]	iPass Card Company Founded 13 February 2014 ^[5]
Regional Pass 基北北桃1200都會通 ^[7]	Regional Pass Price NT\$1,200 / 30 days, unlimited rides ^[7]	Regional Pass Coverage Keelung, Taipei, New Taipei, Taoyuan — metro, buses, TRA segment, coaches, YouBike [/bike/history/youbike/] ^[7]	One Card, One Pass A single EasyCard [/ticketing/guides/cards-passes-and-fares/] can hold only one active monthly pass at a time ^[7]

Two different companies issue the two cards that work almost everywhere in Taiwan, and neither is a government agency. EasyCard came out of Taipei's own metro company; iPass began life as Kaohsiung Metro's own card. The regional commuter pass that sits on top of them is younger still, run by Taipei Metro [\[/rail/operators/trtc/\]](/rail/operators/trtc/) on behalf of four separate city governments, and it is one of the few transit policy changes anywhere that made the product both cheaper and broader at the same time ^[7].

EasyCard — a metro operator that founded a payments company

EasyCard Corporation (悠遊卡股份有限公司) has NT\$700 million in registered capital and was established in March 2000 ^[1]. Its predecessor, 台北智慧卡票證股份有限公司 (Taipei Smart Card Corporation), was set up on 25 February 2000 by Taipei Metro itself, together with the Taipei City Government's parking authority, Greater Taipei's bus operators, and a vendor consortium — 神通 (Mitac), 台新 (Taishin), 國泰世華 (Cathay United), 中信銀 (CTBC), 富邦 (Fubon), 三商行 and 所羅門科技 (Solomon Technology) ^[2]. A metro operator founding the region's dominant payments company is an unusual origin story, and it explains why TRTC is still a named shareholder today, alongside the Taipei City Government, twelve Taipei-area bus operators and a roster of banks ^[1].

The card reached Taipei Metro in June 2002 — at ten stations initially — and went live system-wide across Greater Taipei's buses and the metro on 30 September 2002 ^[3] ^[2]. One million cards had been issued by that December ^[3] ^[2]. **The two Chinese Wikipedia articles about this launch do not agree with each other:** one describes June as ten metro stations only, with September as the full system going live; the other describes June as the *entire* metro line already running, plus one bus route and fifteen car parks, with September described instead as

the card going on general retail sale (「悠遊卡全面上市」)^[3] ^[2]. Both are read here in full and neither cites the other; this page carries the more specific account without treating that as resolving the disagreement.

By the company's own account, as of end-October 2022 it had **98.32 million cards in circulation**, more than 9 million of them active, with NT\$42.13 billion spent January–October that year and a 73.7% share of the stored-value market^[4]. That is the most recent figure this page can source to the company directly; it listed on Taiwan's emerging stock market on 3 January 2023, under code 6035^[4]. The card now reaches well beyond transport — convenience stores, supermarkets, dining, scenic-site admission, hospitals and clinics, government fee payment and library book loans, on top of High Speed Rail, TRA, intercity coaches, YouBike [\[/bike/history/you bike/\]](/bike/history/you-bike/) and the Blue Highway [\[/ferry/routes/blue-highway/\]](/ferry/routes/blue-highway/) ferries^[1].

iPass — Kaohsiung's card, not a Taipei one

iPass (一卡通) is not a Taipei product at all. It began as an electronic ticket issued directly by Kaohsiung Rapid Transit Corporation, first issued in December 2007 and activated with the opening of the Kaohsiung MRT Red Line on 9 March 2008^[6]. A dedicated card company — 一卡通票證股份有限公司 — was approved by the Financial Supervisory Commission on 6 December 2013 and took over the ticketing business on 13 February 2014^[5] ^[6], with shareholders including the Executive Yuan's National Development Fund, the Kaohsiung City Government, Union Bank of Taiwan and Kaohsiung Rapid Transit Corporation itself^[5]. It gained its own electronic-payment business licence in July 2017^[5]. Today Taipei's own Public Transport Office names iPass, alongside EasyCard and icash (愛金卡), as one of the electronic tickets approved on the joint-operation bus network^[17] — two cards from two different cities' metro operators, both now interchangeable across the same buses and trains.

The regional pass: 基北北桃1200都會通

The current commuter pass is issued by Taipei Metro on behalf of four city governments — Keelung, Taipei, New Taipei and Taoyuan — under the Executive Yuan's public-transport promotion programme^[7]. It costs **NT\$1,200 for 30 days**, unlimited rides, unlimited distance, within that zone^[7]. It replaced a Taipei/New Taipei-only pass that had cost **NT\$1,280** and covered less^[11] — a rare case of a public transport product getting both cheaper and broader in the same change.

What it actually covers

The operating notice is specific, and worth quoting rather than summarising^[7]:

- **Metro and light rail:** every New Taipei Metro [\[/rail/operators/ntmc/\]](/rail/operators/ntmc/) and Taipei Metro line, plus the Taoyuan Airport MRT [\[/rail/metro/lines/airport-mrt/\]](/rail/metro/lines/airport-mrt/).
- **City buses:** Keelung, New Taipei and Taoyuan city bus routes, and Taipei's joint-operation network.

- **TRA**, but only between named stations — the main line from Keelung to Taoyuan's Xinfu station, the Yilan Line between Badu and Fulong, and the Shen'ao and Pingxi branch lines — and **not** on reserved-seat-only services that sell no standing tickets, which the notice names explicitly: 觀光 (sightseeing), 團體 (group), 太魯閣, 普悠瑪 and EMU3000 trains.
- **Highway and intercity coaches**, on a named list of more than ninety route codes across roughly a dozen operators, from 國光客運 to 基隆客運 to 葛瑪蘭客運.
- **YouBike**, with the first 30 minutes free at Taipei and New Taipei docks, and the first 60 minutes free at Taoyuan docks^[7].

One card, one pass at a time

A single EasyCard can carry only one active monthly pass — the notice's own words are that a card can be set to one product 「僅能設定一種定期票」, and a rider has to wait for the current pass to expire before setting up a different one^[7]. That rule is why the transition from the old 1,280 pass required a genuine choice rather than simply layering the new pass on top: a card already carrying an active 1,280 pass had to have it cancelled and refunded before the 1,200 pass could be set on the same card^[7].

You do not need a special "TPASS card"

The pass is not tied to any particular physical card. The operating notice lists the whole family of EasyCard products it can be loaded onto: ordinary cards, co-branded bank cards, EasyCard Debit cards, Samsung Wallet EasyCards, SuperCard, telecom-issued EasyCards, student cards, and digital student IDs^[7]. Co-branded and Debit cards need at least 60 days of remaining validity to qualify, but nothing requires buying a distinct "TPASS" card to use the pass^[7].

SuperCard specifically is EasyCard's name for a newer card generation the company describes as 「新一代悠遊卡，手機就是你的加值機」 — a card that can be topped up from a phone rather than only at a machine^[18] — and it is one option among the family above, not a requirement.

What *is* sold separately is a commemorative TPASS-branded EasyCard, issued by the central government's Directorate General of Highways: it costs NT\$100 to buy, and that NT\$100 is refunded as an account top-up once the buyer completes real-name registration and taps the card at a convenience store^[8]. That refund is the source of the "the card is effectively free" claim that circulates about the pass — it is correct, but it describes a specific commemorative card, not a requirement to use the pass at all.

The launch, dated

Presale for the TPASS EasyCard opened at four convenience-store chains on 18 May 2023; card collection and 1,200-pass presale at MRT stations began 15 June 2023; the predecessor 1,280 pass was withdrawn from sale on 30 June 2023; and the new pass, with its expanded coverage, went live on 1 July 2023^[9] ^[10]. On launch day TRTC put its own scale in numbers: 1,360 fare gates and 645 ticket machines across the system configured to sell and refund the new pass^[10].

The 1,280 pass's refund rule was not as simple as it sounds

New Taipei City's own operating document for the old 1,280 pass gives its general, voluntary refund formula as the pass price **minus a front-loaded daily deduction — NT\$180 for the first day, NT\$130 for every day after — minus a NT\$20 handling fee**^[11]. That is not a flat pro-rata split, and it is not fee-free: cancelling early cost proportionally more than cancelling late. A separate clause in the same document, covering only a card that has *physically failed* through no fault of the holder, does use a simple pro-rata formula with no stated fee — pass price minus (pass price × elapsed days ÷ 30)^[11]. The two are easy to conflate, and this page keeps them separate rather than publishing the more generous one as the general rule.

Taipei Metro's own fare structure

Underneath any card or pass sits Taipei Metro's base fare system, which is banded by distance rather than by zone or station count. The system's own fare table gives ten tiers, each five dollars apart, running from the minimum to the maximum single fare^[12]:

DISTANCE	FARE
≤5 km	NT\$20 ^[12]
>5–8 km	NT\$25 ^[12]
>8–11 km	NT\$30 ^[12]
>11–14 km	NT\$35 ^[12]
>14–17 km	NT\$40 ^[12]
>17–20 km	NT\$45 ^[12]
>20–23 km	NT\$50 ^[12]
>23–27 km	NT\$55 ^[12]
>27–31 km	NT\$60 ^[12]
>31 km	NT\$65 ^[12]

That is the full/adult fare. Two discounts apply at a flat **40% of the full fare per ride**: the children's fare, for ages 6–11 with a digital student ID or a recognised children's card^[14], and the concessionary fare on 社福卡 — 敬老卡 (senior), 愛心卡 (disability) and 愛心陪伴卡 (companion) cards. Below age 6, or below 115cm regardless of age, a child rides free alongside a fare-paying passenger, and one adult can bring up to four such children^[15].

Taipei-registered 敬老卡/愛心卡 holders get a separate, richer benefit on top of the 40% floor: **600 points a month**, one point worth NT\$1, usable across TRTC, New Taipei's light rail and Circular Line [\[/rail/metro/lines/circular-line/\]](/rail/metro/lines/circular-line/), Maokong Gondola [\[/rail/cable/lines/maokong-gondola/\]](/rail/cable/lines/maokong-gondola/), Taipei's joint-operation buses, and YouBike rental within Taipei City^[13]. Points do not

carry over to the next month, and once they run out the fare reverts to 40% off on rail and 50% off on bus^[13]. A 愛心陪伴卡 used on its own, without the primary card tapping immediately before it, earns no points of its own^[13].

Transferring between MRT and bus

A bidirectional transfer between Taipei Metro and a Taipei or New Taipei joint-operation bus, completed within 60 minutes, discounts the second leg: **NT\$8 for an ordinary card, NT\$6 for a student card, NT\$4 for a social-welfare card**^[16]. Taipei's Public Transport Office states the same NT\$8/NT\$6 figures independently on its own FAQ page^[17] — agreement between the regulator and the operator, not one source repeating itself. The discount does not extend to distance-charged buses, or to any other mode — YouBike, the Danhai and Ankeng light rail lines, TRA, Maokong Gondola, intercity coaches, High Speed Rail or taxis are all outside it^[16].

A new scheme: cashback for frequent riders

Separately from any pass, TRTC introduced a frequent-rider cashback scheme on 3 January 2026, for full-fare stored-value or QR-code riders only — 社福卡 and other already-discounted card types do not qualify^[19]. It is based on the *previous* calendar month's ride count: **11–20 rides earns 5% cashback, 21–40 earns 10%, 41 or more earns 15%**, calculated against that month's total fare spend and credited automatically to the same card's e-wallet on the first tap of the following month, valid for one year from the 1st of the crediting month^[19].

EasyCard, iPASS and icash: the overlap has edges

The current Taipei Metro payment table, fetched on 23 August 2026, lists EasyCard, iPASS and icash as stored-value cards, but marks the NT\$1,200 TPASS as an EasyCard product rather than a pass available on all three cards^[20].

iPASS's own current acceptance directory lists Taipei, New Taipei, Taoyuan, Taichung and Kaohsiung rail and bus systems, TRA, and YouBike, while warning that acceptance can still vary by named operator or route^[21].

TRA's current electronic-ticket rules accept EasyCard, iPASS and icash on the listed island and branch-line services, but exclude sightseeing, group, Taroko, Puyuma, EMU3000 and other trains for which the rule says electronic tickets are not valid^[24].

The three cards therefore overlap on Taipei Metro and much of the ordinary regional network without being interchangeable products: the TPASS container is EasyCard-only, and iPASS publishes a wider national acceptance directory than any single Taipei operator's fare table^[20]^[21].

EasyCard's own company page lists non-transit uses including convenience stores, supermarkets, dining, attractions, hospitals, government fees and libraries^[1].

iPASS's current directory separately lists non-transit categories including convenience stores, supermarkets, shopping, dining, attractions, cinemas, hotels, libraries, government fees, school services, medical services, donations and sports centres^[21].

The current icash transport PDF establishes selected bus acceptance, but it is not a complete current Taipei-region acceptance or refund catalogue, so this guide does not infer broader icash non-transit coverage from it^[31].

Concessions: the identity document matters

The Taipei Metro ticket page retrieved on 23 August 2026 defines concessionary eligibility for nationals aged 65 or over, a disability certificate holder and one companion, and Taipei or New Taipei Indigenous residents aged 55 or over with the required household documentation^[27].

The same page defines the Taipei/New Taipei child ticket for a locally registered child aged 6 to under 12 with household-registration proof, while the existing metro fare guidance records the separate free-travel threshold for a child under 6 or under 115 cm accompanied by a fare-paying passenger^[27] ^[15].

TRA's current rules use a different national definition: senior nationals are 65 or over, children are 6 to under 12, and a disability certificate holder may travel with the necessary companion at the concessionary rate^[24].

Single-journey tokens and refunds

The Taipei Metro single-journey fare retrieved on 23 August 2026 is NT\$20–65, valid on the day of issue, and sold by station vending machines and station information counters, with a QR single ticket also available through Taipei Metro Go^[27].

The token is a contactless ticket: the gate reads it at entry and recovers it at the exit gate, so it is not a souvenir to carry through the journey^[27].

An unused single ticket can be refunded only on its purchase day, while a used ticket or one left after a midway exit is not refundable under the passenger regulations retrieved on 23 August 2026^[28].

Deposits and stored-value refunds

EasyCard's current refund FAQ requires the card to be locked before a termination refund, charges NT\$20 unless the card has been used at least five times and held for at least three months, and gives no balance refund for an anonymous lost card^[25].

For an EasyCard deposit product, the current formula is refundable deposit plus usable balance minus the refund fee, with the card cost also deducted when the card is damaged^[26].

iPASS has no rental or deposit system: its current product page says only the stored balance is refundable, not the product purchase price, and its return process can charge NT\$20 when the card has not met the five-use or three-month threshold^[22] ^[23].

iPASS's current return process requires the physical card to be sent by registered mail, and an anonymous lost card is not a recoverable balance under the product rules^[23] ^[22].

The fetched icash transport document does not establish a current complete icash refund rule, so that figure and procedure remain TBC rather than being borrowed from EasyCard or iPASS^[31].

The NT\$1,200 TPASS: coverage, purchase and take-up

The TPASS operating notice prices the 基北北桃 pass at NT\$1,200 for 30 days of unlimited use on the named MRT and light-rail systems, municipal buses, the specified TRA segment, listed intercity-coach routes and YouBike coverage; the TRA and coach clauses contain their own route and train exclusions^[7].

The notice does not list Blue Highway ferries among those named coverage categories, so this guide does not assume that a ferry fare is included in the pass without a separate operator or government confirmation^[7].

The current Taipei Metro purchase instructions say to select TPASS/1200 at the station process, and explain how an active 1280 pass on the same EasyCard is handled when the 1200 pass is purchased^[29].

The latest take-up figure found in a full official page is dated 19 February 2025: Taipei City reported cumulative issuance above nine million passes and more than 700 million uses, with the page updated on 13 March 2025^[30].

Those are dated cumulative totals, not a 2026 monthly sales rate, so no newer growth figure is inferred here^[30].

What this page does not yet say

- **Bus fares in detail.** The joint-operation network [\[/bus/network/joint-operation/\]](/bus/network/joint-operation/)'s own section-fare structure (段) and where the section boundaries fall are not covered here — a genuine gap for a future page, not a figure guessed at.
- **Airport MRT, Danhai/Ankeng light rail and Maokong Gondola fares.** Figures for these circulate widely but were not independently verified against a primary source in the current ticketing pass, so none appear above.
- **Whether EasyCard's 2009 "sole non-bank issuer" status ever formally ended.** iPass and icash are both confirmed today as accepted TRA electronic tickets^[17], which requires their own issuer licences, but when each was granted is not established here.
- **A current EasyCard circulation figure.** The 98.32 million figure above is dated to October 2022; nothing more recent was fetched and confirmed this run.

- **A complete current icash non-transit and refund catalogue.** The official transport PDF was fetched, but the current icash web pages needed to settle the wider question did not return a usable full page; the gap is recorded rather than filled from a third-party list.

Specifications

Metro base fare	20 NT\$ ^[12]
Metro maximum single fare	65 NT\$ ^[12]
Metro fare tiers	10 ^[12]
Concessionary / child fare	40 % of full fare ^[14]
MRT–bus transfer discount, ordinary card	8 NT\$ ^[16]
MRT–bus transfer discount, student card	6 NT\$ ^[16]
MRT–bus transfer discount, welfare card	4 NT\$ ^[16]
Transfer time window	60 min ^[16]
TPASS card fee	100 NT\$ (refunded on registration) ^[8]
Taipei-registered 敬老/愛心 monthly points	600 points (1pt = NT\$1) ^[13]

- 14 How do Taipei/New Taipei children aged 6 and above but under 12 get a fare discount on Taipei Metro? [https://www.metro.taipei/News_Content.aspx?n=566DA580861CEE77&sms=87415A8B9CE81B16&s=00695D3417F06354]

臺北市/新北市6 歲以上未滿 12 歲兒童搭乘臺北捷運如何享有票價優惠？

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-12

Source for the 40% (4折) child fare with a digital student ID, children's discount card or New Taipei children's card, and for children from other counties paying the full adult fare. Confirmed on a direct, targeted fetch that this page does not itself state the under-6/under-115cm free-ride rule — that is on a separate FAQ page, cited next.

-
- 15 What are the eligibility requirements for free travel on Taipei Metro? [https://www.metro.taipei/News_Content.aspx?n=566DA580861CEE77&sms=87415A8B9CE81B16&s=659D91B390310152] 搭乘捷運免票資格為何？

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-12

Source for children under 6, or under 115cm regardless of age, riding free when accompanied by a fare-paying passenger, one adult covering up to four such children, and the 115cm/ID threshold above which a child must show identification.

-
- 16 What is the two-way transfer discount between MRT and bus (excluding distance-charged buses)? How is it deducted for each stored-value card type? [https://www.metro.taipei/News_Content.aspx?n=566DA580861CEE77&sms=87415A8B9CE81B16&s=1CDFC00134A98701]

何謂捷運與公車（不含里程收費公車）間雙向轉乘優惠？儲值卡各票種雙向轉乘優惠如何扣款？

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-12

Source for the NT\$8/NT\$6/NT\$4 transfer discount by card type, the 60-minute window, and the list of modes the discount does not extend to (YouBike, Danhai/Ankeng light rail, TRA, Maokong Gondola, intercity coaches, THSR, taxis).

-
- 17 Which electronic tickets are approved for Taipei's joint-operation buses, and what are their discounts? [https://pto.gov.taipei/News_Content.aspx?n=6B4D38874E971F4B&s=368ADCC65AB0818]

臺北市聯營公車所核備之電子票證及其優惠各為何？

PRIMARY 臺北市公共運輸處 (Taipei Public Transport Office) accessed 2026-08-12

Names EasyCard, iPass and icash (愛金卡) as the approved cards, and independently states the same NT\$8/NT\$6 MRT-bus transfer amounts as TRTC's own FAQ — agreement between the regulator and the operator, not a single source repeated.

-
- 18 SuperCard [https://www.easycard.com.tw/easycards?cls=1662119407]

SuperCard 超級悠遊卡

PRIMARY EasyCard Corporation (悠遊卡股份有限公司) accessed 2026-08-12

EasyCard's own product page for SuperCard, source for the company's description of it as a newer card generation toppable from a phone (「新一代悠遊卡，手機就是你的加值機」). It is one option among the card family the megacity-notice PDF lists as eligible to carry the pass, not a synonym for it.

19 **Frequent-rider discount scheme** [<https://www.metro.taipei/cp.aspx?n=AB56163F79ECB2C2>]
常客優惠方案

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-12

Source for the scheme's 3 January 2026 start date, the 5%/10%/15% cashback tiers at 11-20/21-40/41+ rides in the prior month, the exclusion of welfare and already-discounted cards, and the one-year validity of the credited cashback.

20 **Taipei Metro multiple payment methods and discounts** [<https://web.metro.taipei/QRCode/multipayment/Discount/directions.html>]

臺北捷運多元支付方式及優惠

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-23

The live payment comparison table. It lists EasyCard, iPASS and icash as stored-value cards for Taipei Metro and shows that the NT\$1,200 pass is available only on EasyCard.

21 **Where can I use iPASS?** [<https://www.i-pass.com.tw/Range/Index/0?type=1>]

一卡通使用範圍

PRIMARY 一卡通票證股份有限公司 (iPASS Corporation) accessed 2026-08-23

The current iPASS acceptance directory. It lists Taipei/New Taipei/Taoyuan/Taichung/Kaohsiung rail and bus systems, TRA, YouBike and the non-transit acceptance categories, with operator-specific caveats.

22 **Adult iPASS card** [<https://web.i-pass.com.tw/Page/Adult>]

普通卡

PRIMARY 一卡通票證股份有限公司 (iPASS Corporation) accessed 2026-08-23

The current product page. It says the stored-value card has no rental or deposit system, starts with a zero balance, and refunds stored value rather than the product purchase price.

23 **iPASS card return process** [<https://www.i-pass.com.tw/Page/CardReturnProcess>]

一卡通票證退卡流程

PRIMARY 一卡通票證股份有限公司 (iPASS Corporation) accessed 2026-08-23

The current return procedure. It requires the physical card by registered post and sets the NT\$20 charge when the card has not been used at least five times or held for at least three months.

24 **Regulations for travel with electronic tickets** [https://www.railway.gov.tw/tra-tip-web/tip/tip00C/tipC21/view?lang=zh_TW&proCode=8ae4cac3756b7b41017572e76e08178d&subCode=8ae4cac290f06c930190f390e6930537]

多卡通電子票證乘車營運規定

PRIMARY 臺灣鐵路股份有限公司 (Taiwan Railways Administration) accessed 2026-08-23

The live TRA rules, effective for travel from 23 June 2025. It covers EasyCard, iPASS and icash acceptance, train exclusions, no-seat-reservation operation, and the senior, child and disability concession categories.

25 **EasyCard refund FAQ** [<https://www.easycard.com.tw/faq?page=8>]

悠遊卡退卡退費

PRIMARY 悠遊卡股份有限公司 (EasyCard Corporation) accessed 2026-08-23

The current card-termination rules. It requires card locking, charges NT\$20 unless the five-use and three-month conditions are met, and gives no balance refund for an anonymous lost card.

26 EasyCard deposit-card refund FAQ [<https://www.easycard.com.tw/faq?page=11>]

悠遊卡押金卡退費

PRIMARY 悠遊卡股份有限公司 (EasyCard Corporation) accessed 2026-08-23

The current deposit-card formulas: refundable deposit plus usable balance minus the refund fee, with the card cost also deducted for a damaged card.

27 Taipei Metro ticket types [<https://www.metro.taipei/cp.aspx?n=CEF54168B23F73B4&s=AD70DC4F6A708EA7>]

臺北捷運票種說明

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-23

The current ticket page. It gives the NT\$20–65 single-journey range, ticket validity, sales points, QR purchase option, and eligibility for child and concession tickets.

28 Regulations for use of the Taipei Metro system [<https://web.metro.taipei/QRCode/Regulations%20for%20Use%20of%20the%20Taipei%20Metro%20System-Chinese.pdf?date=20250924>]

臺北捷運系統旅客須知

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-23

The current passenger-regulations PDF. It says an unused single ticket can be refunded only on its purchase day and that a used ticket or a ticket after a midway exit is not refundable.

29 TPASS 1200 purchase instructions [<https://web.metro.taipei/event/1200/Ticket1200.aspx?type=2>]

基北北桃1200都會通購票說明

PRIMARY 臺北大眾捷運股份有限公司 (Taipei Rapid Transit Corporation) accessed 2026-08-23

The current TRTC purchase instructions. They explain selecting TPASS/1200 and the automatic handling of an active 1280 pass on the same EasyCard.

30 TPASS use reaches nine million cards [https://sec.gov.taipei/News_Content.aspx?n=49B4C3242CB7658C&s=30B81710E7FD062D&sms=72544237BBE4C5F6]

基北北桃1200都會通發行量突破900萬張

PRIMARY 臺北市政府 (Taipei City Government) accessed 2026-08-23

The city government's 19 February 2025 release, updated 13 March 2025. It reports cumulative issuance above nine million and total uses above 700 million at that date.

31 icash transport acceptance list [https://www.icash.com.tw/pdf/icash_trans.pdf]

愛金卡交通運輸使用範圍

PRIMARY 愛金卡股份有限公司 (icash Corporation) accessed 2026-08-23

The current transport PDF fetched from icash. It lists selected bus operators and does not establish a complete current Taipei-region non-transit or refund catalogue; the guide preserves that limitation.

Last updated: 2026-08-23

An independent, non-commercial reference site. Not affiliated with Taipei Rapid Transit Corporation, Taipei City Government, or any bus operator. Line colours are the official values published by each operator through Taiwan MOTC's open data platform. [About this site.](#)

Station names, codes and sequence from TDX Transport Data eXchange, Ministry of Transportation and Communications, operators TRTC, NTMC, TYMC, and TMRT. Government open data. Retrieved 2026-08-22; source last updated 2020-01-31. The 12 Sanying station records absent from TDX are sourced directly to New Taipei Metro and government publications on their pages. Provenance.
