

Stations

Eighteen Green Line stations in TDX running order, with their siting, contract context and published station design.

The station list is generated from the TMRT `Station` and `StationOfRoute` records in TDX.^[1] Station pages are content entities because the useful distinctions are not only coordinates: the construction package, engineering form, naming context and the operator's published public-art record differ from stop to stop.^{[2] [3] [4] [5]}
