Matsu island ferry services

Island ferries, Daqiu excursions, Fuzhou mini-three-links and the overnight Keelung route serving Matsu, with official fares and date-sensitive operating rules.

MATSU ISLAND FERRY SERVICES			
MAIN ISLAND FERRY NETWORK Nangan–Beigan, Nangan–Juguang, Juguang inter-island and Nangan–Dongyin ^[1]	NANGAN–BEIGAN ADULT FARE NT\$160 ^[2]	NANGAN–JUGUANG ADULT FARE NT\$250 ^[2]	NANGAN–DONGYIN ADULT FARE NT\$400 ^[2]

Matsu's ferry network is an island system, not one route. The main ports are Fuao on Nangan, Baisha and Qiazi on Beigan, Zhongzhu on Dongyin, Mengao on Dongju and Qingfan on Xiju.^[1] The official visitor transport page says schedules change with season and weather: summer and holidays can add sailings, while winter can reduce them.^[1] The county booking system is therefore the right place to check a date, while the timetable below is a published operating pattern rather than a guarantee of departure.^{[3] [1]}

Nangan, Beigan and Daqiu

Nangan–Beigan is the short, high-frequency core crossing. The official page gives an approximate 20-minute journey and lists adult, group, county-resident and half fares of NT\$160, NT\$150, NT\$110 and NT\$80 respectively.^[1] Its published departures are 07:00, 07:30, 08:00, 08:30, 09:00, 10:00, 11:00, 11:30, 12:30, 13:30, 15:00, 16:00, 16:30, 17:10 and 17:30 from Nangan, with a slightly different return pattern from Beigan.^[1] The page names Nanbei Marine and Hongyu Marine as the operators for this crossing.^[1]

Daqiu is a separate, seasonal excursion rather than a continuation of the regular Beigan ferry. The Nangan service takes about 40 minutes, charges NT\$400 for an adult, NT\$230 for a county resident and NT\$200 for the stated discount category, and returns through Beigan; the page lists one daily sailing in April and September and two in May through August.^{[1] [2]} The Beigan–Daqiu service takes about 10 minutes, lists an NT\$300 adult fare and NT\$200 Beigan-resident fare, and publishes 08:30/14:30 outbound and 10:30/16:30 return departures, subject to seasonal adjustment.^[1] Both Daqiu services publish a minimum-passenger rule and wind restrictions.^[1]

The date boundary matters in practice. Hongyu Marine's full 25 August 2026 notice cancelled all Nangan–Daqiu sailings on 26 and 27 August because of poor sea conditions during the typhoon's outer circulation and said online-booked passengers would receive automatic full refunds.^[14] That is why this page records the alert as an event, not as a permanent route status.

Juguang and Dongyin

Nangan–Juguang takes about 50 minutes and costs NT\$250 for an adult, NT\$125 for a half fare and NT\$200 for a county-resident full fare.^{[1] [2]} The official pattern has three daily round trips: Nangan departures at 07:00, 11:00 and 14:30.^[1] The sequence changes by month: in odd-numbered months the route goes Nangan–Xiju–Dongju–Nangan, while in even-numbered months it goes Nangan–Dongju–Xiju–Nangan; the page gives 35–50-minute outer legs and a 15-minute Xiju–Dongju leg.^[1] The first and last Juguang sailings also have local ticket-counter deadlines, so a published departure time is not the same thing as a late-arrival guarantee.^[1]

Xiju–Dongju is the inter-island shuttle. It takes about 10–15 minutes, costs NT\$80 for an adult and NT\$40 for a half fare, and has four daily return departures at 07:30, 11:00, 14:30 and 17:10 from Xiju, with returns ten minutes later.^{[1] [2]} The official page warns that the boat briefly calls at Dongju before returning, so passengers should arrive early.^[1]

Nangan–Dongyin is the long island connection: approximately two hours, NT\$400 adult and NT\$200 half fare, normally one or two sailings daily.^{[1] [2]} On odd dates Taima Star leaves Nangan at 08:30 and New Taima leaves Dongyin at 06:30; on even dates the corresponding vessels and times are New Taima at 09:30 from Nangan and Taima Star at 07:30 from Dongyin.^[1] The official page says Donghai Pearl or South-North Star may substitute during maintenance, with the actual departure set by a temporary notice.^[1]

Fuzhou and Keelung routes

MOTC gives approximate crossing times of 90 minutes for Nangan Fuao–Fuzhou Langqi and 30 minutes for Beigan Baisha–Fuzhou Huangqi.^[4] The county fare page lists NT\$1,000 and NT\$650 adult fares respectively and says these mini-three-links figures include the ticket, insurance, terminal service and cleaning fees.^[2] The booking system says mini-three-links tickets cannot be collected at a convenience store because passengers must bring the original cross-border documents to the port counter.^[3]

The overnight Taiwan connection runs from Keelung to Nangan and Dongyin, with the order changing by date: the odd-date pattern reaches Nangan first, while the even-date pattern reaches Dongyin first.^{[5] [3]} MOTC's ticket directory points both Keelung–Matsu and Taipei–Matsu passengers to the county booking portal and lists the operator contact numbers for those routes.^[6] The visitor page gives an 8–10-hour Keelung–Matsu journey and a roughly two-hour Nangan–Dongyin leg; the booking system warns that a morning mini-three-links connection requires the odd-date, Nangan-first sailing.^{[5] [3]} The official fare table separates the outbound

and return directions: Keelung to Matsu first class is NT\$1,890, while Matsu to Keelung is NT\$1,800, with different resident and concession values beside them.^[2] Those are published directional values, not an arithmetic error to be averaged.

Accessibility and live information

MOTC's vessel records provide ship-level evidence rather than an island-wide accessibility claim. Donghai Pearl is recorded at 204 passengers with three wheelchair positions, one accessible toilet, staff assistance, a ramped shore connection and a complete-accessibility label.^[7] South-North Star is recorded at 321 passengers with four wheelchair securing positions, one accessible toilet, staff assistance and a ramped shore connection.^[8] Taima Star is recorded at 580 passengers with two wheelchair positions, two accessible toilets, staff assistance and a complete-accessibility label; Ji Shun No. 10, used on the Baisha–Huangqi route, is recorded at 149 passengers with two wheelchair positions, one accessible toilet, staff assistance and a ramp.^{[9] [10]} The records do not establish that every sailing, pier or substitute vessel has the same facilities.^{[7] [8] [9] [10]}

The two current vessels, and the one they replaced

Taima Star was delivered to Keelung Port on 1 August 2015, with a maiden-voyage ceremony on 12 August; it is a 4,982-ton vessel with 380 berths across five cabin classes plus 200 seats, giving the 580-passenger capacity recorded in its MOTC vessel record above.^[11] New Taima was built at Miura Shipyard in Saeki, Japan — keel laid 24 March 2022, named and launched 2 August 2022, delivered and sailed to Keelung 9 March 2023 — and held its official inaugural-voyage ceremony on 16 April 2023, presided over by President Tsai Ing-wen; it is a 5,341-tonne vessel carrying up to 642 passengers across 386 berths and 256 seats.^[12] The vessel these two replaced, the original Taima Ferry (台馬輪), made its final voyage on 27 April 2023 — departing Nangan at 11:00 and Dongyin at 15:00 — after 26 of its 37 years spent on this route; it had itself begun as a 1985-built Japanese Seto-Inland-Sea ferry, bought secondhand by Lienchiang County in 1997.^[13]

What remains date-sensitive

Weather, seasonal demand, maintenance substitutions and temporary notices can change the published pattern.^{[1] [3]} Check the county booking portal and operator notices immediately before travel; the portal says other-route cancellations follow actual sea conditions and official announcements, while the Taiwan route has its own operator notice timing.^[3]

Specifications

Nangan–Beigan crossing	20 minutes (approximate) [1]
Nangan–Juguang crossing	50 minutes (approximate) [1]
Nangan–Dongyin crossing	2 hours (approximate) [1]
Nangan Fuao–Fuzhou Langqi crossing	90 minutes (approximate) [4]
