

Passenger fares are not the same thing as an operator's regulated rate.

Fare history and concessions

A dated record of Taipei-region passenger fares, transfer discounts, monthly passes and accessibility-related fare changes, with the gazette gaps left visible.

FARE HISTORY AND CONCESSIONS			
TAIPEI METRO OPENING FARES NT\$20, NT\$25, NT\$30 and NT\$35 ^[1]	CURRENT TRTC FARE RANGE NT\$20–65 ^[5]	CURRENT JOINT- OPERATION BUS FARES NT\$15 full / NT\$12 student card / NT\$8 concessionary per segment ^[7]	TPASS LAUNCH 1 July 2023, NT\$1,200 for 30 days ^[14]

Taipei Metro [\[/rail/operators/trtc/\]](/rail/operators/trtc/)'s first published fares were NT\$20, NT\$25, NT\$30 and NT\$35 when the Muzha Line [\[/rail/metro/lines/wenhu-line/\]](/rail/metro/lines/wenhu-line/) opened on 28 March 1996.^[1] The current TRTC data set is a station-to-station record in the NT\$20–65 range and identifies the Circular Line [\[/rail/metro/lines/circular-line/\]](/rail/metro/lines/circular-line/) Phase 1 charge from 1 March 2020 as the basis of the current published data.^[5]

Taipei Metro fares

The opening fare is the anchor: four bands, not the ten bands in the current fare table.^[1] ^[2] The official fare-setting paper says the distance-banded price had remained unchanged for more than ten years when written, but it does not provide a gazette-by-gazette list of every later adjustment.^[2]

DATE	FARE EVENT	EVIDENCE BOUNDARY
28 Mar 1996	Muzha Line opened with NT\$20, NT\$25, NT\$30 and NT\$35 fares. ^[1]	Opening gazette itself: TBC.
1 Mar 2020	Circular Phase 1: NT\$20 to 5 km, then published distance increments, up to NT\$65 above 31 km. ^[6]	Official fare notice, distinct from the open-data mirror. ^[5]
Current dataset	TRTC publishes the current station-to-station grid through 31 Mar 2026. ^[5]	Current publication, not a dated change gazette.

The 1996 and 2020 rows measure different scopes: opening Muzha [\[/rail/metro/stations/br02/\]](/rail/metro/stations/br02/) service versus the later integrated network.^[1] ^[5] Both values are published; neither is averaged away.

Transfer discounts and concessions

The official report supplies the strongest dated sequence found:

1. **25 November 1996:** transfer vouchers began, with an initial NT\$4 discount.^[3]
2. **1 July 1999:** stored-value tickets replaced vouchers, allowing a one-way free transfer within two hours.^[3]
3. **1 November 2003:** the first two-way EasyCard [\[/ticketing/guides/cards-passes-and-fares/\]](/ticketing/guides/cards-passes-and-fares/) stage gave NT\$8 to a full fare and NT\$6 to a student card.^[3]
4. **27 December 2003:** the second stage added a NT\$4 welfare-card discount.^[3]
5. **1 April 2005:** the window became one hour while the discount stayed unchanged.^[3]

The current bus portal publishes NT\$15 per segment, NT\$12 for a student EasyCard segment and NT\$8 for concessions.^[7] TRTC's current FAQ gives MRT–bus discounts of NT\$8, NT\$6 and NT\$4 within 60 minutes.^[9] The old report's one hour and the current FAQ's 60 minutes are the same duration, retained without inventing a separate change.

Bus fares

Taipei [\[/rail/thsx/stations/taipei/\]](/rail/thsx/stations/taipei/) and New Taipei buses use segment fares, not one flat price for every journey.^[7] The current passenger table is NT\$15 full fare per segment, NT\$12 for a student EasyCard segment and NT\$8 for elderly, disabled/companion and eligible-child concessions.^[7] Taipei PTO records the latest joint-operation bus operating-rate approval as 1 July 2020 while passenger fares stayed at 15/12/8 and the city subsidised the difference.^[8]

This is a measurement conflict, not a price contradiction: operating rate is the regulated cost/revenue figure, while passenger fare is what the rider pays. The historical report records a 1997 bus-rate-related transfer-discount change, but a complete gazette-backed chronology of every passenger-fare adjustment remains TBC.^[3]

New Taipei Metro and the trial line

The current linked NTMC [\[/rail/operators/ntmc/\]](/rail/operators/ntmc/) tables publish Danhai station-pair fares of NT\$20–30, Ankeng fares of NT\$20–25 and Circular Line fares of NT\$20–40.^[10]^[11]^[12] These are current station-pair tables, not a claim that each line has held one fare since opening.

The Sanying [\[/rail/metro/lines/sanying-line/\]](/rail/metro/lines/sanying-line/) page says electronic-ticket users ride free from 16–31 August during trial operation while other passengers buy a single ticket.^[13] Its fetched HTML does not publish a normal post-trial station-pair table, so that value is TBC rather than an inference from another line.^[13]

Passes and recent rebates

TRTC's chronology records the NT\$1,280 30-day unlimited pass from 16 April 2018.^[4] The Highway Bureau records the NT\$1,200 TPASS launch on 1 July 2023 and its named MRT, light-rail, bus, TRA, coach and YouBike [\[/bike/history/youbike/\]](/bike/history/youbike/) coverage.^[14] The predecessor ended sales on 30 June 2023.^[4]

TPASS 2.0 is a 2025 frequent-user rebate programme, while TRTC separately publishes its own ride-count cashback scheme beginning 3 January 2026.^[15]^[16] Neither is rewritten as a change to the underlying station-to-station fare.

Accessibility

TRTC's fetched station API covers all 121 records returned by its station-label endpoint and preserves station-specific lift/ramp, accessible-toilet, tactile-paving and stair anti-slip fields.^[17] The fetched response has no nursing-room location or numerical platform-gap field, so the station template marks both TBC.^[17]

NTMC publishes accessible lifts and gates at every Circular Line station, tactile routes from entrances to platforms, accessible toilets at every Circular station and nursing-room station codes.^[18] For light rail it distinguishes elevators at elevated stations, ramps at at-grade stations, tactile warnings and accessible toilets at **V01**, **V26** and **K09**.^[18] TYMC [/rail/operators/tymc/] publishes accessible elevators, gates, toilets, tactile warnings and ramps at level differences for every Airport MRT station, but the fetched page does not publish nursing-room locations or platform-gap measurements.^[19]

What remains unresolved

This is a sourced timeline of events that survived full primary-page checking, not a claim that one complete gazette series has been found. Missing original approval notices for some historic passenger fares, the normal Sanying post-trial table, TYMC nursing-room locations and all platform-gap measurements remain TBC until the responsible authority publishes them.

Specifications

First MRT–bus discount	1996-11-25	date ^[3]
Two-way ordinary-card transfer discount	NT\$8 within the current one-hour window	^[3]
Circular Line Phase 1 base fare	NT\$20 for 5 km or less	^[6]
Circular Line Phase 1 maximum	NT\$65 above 31 km	^[6]
Danhai LRT current fare range	NT\$20–30	^[10]
Ankeng LRT current fare range	NT\$20–25	^[11]
Circular Line current fare range	NT\$20–40	^[12]
